Affected Medium: Soil and Water

Distance Nearest Occupied Building:

1 Miles

Distance Nearest Water Well:

Miles

Type of Incident Pipeline Leak

Release Contained in Dike No

Reported to NRC: Yes

	Spilled	Units	Recovered	Units	Followup	Units
Oil	0	barrels	0	barrels	0	barrels
Brine	5000	barrels	0	barrels	0	barrels
Other	0	barrels	0	barrels	0	barrels

Description of Other Released Contaminant:

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

Surface water contamination.

Areal Extent:

30' x 30', 3' x 20'.

Potential Environmental Impacts:

Probably very minimal because of dilution.

Action Taken or Planned:

Repaired line by replacing one joint and a partial joint and put back in service. The leak occurred just inside metal creek crossing sleeve. Had to cut metal creek crossing sleeve back about 2' to repair fiberglass line. Monitor flow in line with meters at each end. Had meter failures recently and inexperienced lease operator noticed shortage and thought meter was malfunctioning. When he went to repair he found it was not malfunctioning.
